ROSLYN, Wash., May 11.-Yesterday a most terrible explosion occurred in the slope of mine No. 2 of the Northern Pacific Coal company at this point in which the loss of life exceeds in number that of any other disaster that has ever been chronicled in the northwest or on the Pacific slope. The exact nature of the explosion or the circumstances that led to it will probably never be known, since it is believed that every miner who was working in the slope at the time has perished. It is not definitely known as to the number of men who were in the vicinity of the disaster, but it is believed sis; Rev. Anna H. Shaw, of Philadel-that between forty-five and fifty men phia, the Wimodaughsis. were in the three levels that were affected by the explosion. Large relief forces are at work and at this time three bodies have been recovered. These men were working nearest the opening and at some distance from the point where it is supposed the explosion occurred.

Most of the men were 1,500 to 2,000 feet further in the slope and in the immediate vicinity of the accident. There is no doubt either in the minds of the miners or the company's officials but that every man was instantly killed by the explosion.

Following is an authenticated list of the men who were at work on the three levels that were affected and their condition as to being single or men with families:

Thomas Holmes, married; John Fos ter, wife and baby; Philip Davies, a large family; Thomas Rees, large family; John Rees, son of Thomas; Will Robinson, wife and baby; Robert Graham, wife and two children: George Moses, leaves an orphan son 10 years old: A Pollard, colored, married; Jack Ferguson, a large family; George Brooks, family at Streator, Ills.; Joseph Worth, Sr., large family: Joseph Ellsworth, Jr.; John Laferty, single, aged 65, owner of considerable property; Dan McClelland wife and three children; Richard For sythe, family; Scott Miles, colored, married; Pruss Luving, colored, married; Andrew Erlandson, wife and four children: Charles . #### INDIANA BANKERS WIN.

A Decision in Their Favor Against the State Tax Law.

INDIANAPOLIS, May 11.—The Indiana bankers won their case against the new state tax law in the supreme court. Under the law the board of tax commissioners could fine and imprison for a refusal to answer questions asked by the board, and Philip C. Decker, president of the Evansville bank, who refused to testify concerning deposits in the bank, was sent to jail, but released on habeas corpus writ. The supreme court yesterday decided that the clause inflicting fines and imprisonment was unconstitutional, but that it did not vitiate the act, the other radical provisions of which are now in litigation.

A METHODIST UNION.

AN EFFORT TO BRING THE NORTH AND SOUTH BRANCHES TOGETHER.

Interloping Laymen Hold Seats in the Conference Only on Clerical Sufferance Methodists Are Opposed to the World's Fair if Open on Sunday.

OMAHA, May 11.—An effort is being made by the Methodist conference to bring the church north and south to gether, and communication has already been opened with the officers of the church south by the committee on the state of the church.

Dr. King, of New York, offered reso lutions requesting the general conference to take such action as it may deem best to secure the organic union of the Methedist Episcopal church, the Methodist church south and other Methodist churches. The resolutions were referred, without discussion, to the committee on the state of the church.

Yesterday's session was presided over by Bishop Fitzgerald. The committee on episcopacy, to whom was referred the question whether more bishops are needed, reported that they had not yet been able to solve the problem and were given more time.

A Day Spent in the Constitution.

The special order of the day, the re-ort of the constitutional committee was called up at 10 o'clock, and imme-diately there was confusion. Dr. Buckley asked the conference to allow Bishop Merrill to speak on the question (a mat-ter prohibited by the rules).

Dr. Neeley opposed it and thought the conference could not afford to lay down a precedent and allow the bishops to speak, and thus use their influence on the floor in the interest of legislation. Dr. Myley, of New York, thought that the bishop should be allowed to speak. If such a thing imperilled the good of the church then do away with the rule.

Dr. Buckley again secured the floor and made an extended speech. Before a vote could be taken on the question the rules were suspended and the report of the committee on the

Columbian exposition was presented.

The report heartily approved the exposition, but emphatically protested against opening the gates on Sunday.

A telegram was ordered to be sent to congress at once heartily approving the World's fair appropriation bill, providing it be conditioned on Sunday closing. Laymen's Bights to Seats Questioned.

The report of the committee on constitution was then taken up and read and considered by paragraphs, Dr. Neeley taking the floor to explain the first section. The first declaration was that the first three sections of the pres-ent discipline are constitutional. This was combatted on the ground that it would compel all acts of the general conference to be reviewed by the an-

Dr. Little, of Central Illinois; Dr. Leonard, of Ohio, and Dr. Curtis, of Chicago, discussed the matter in the negative. They held that portions of the alleged legislation are merely statutory laws and not constitutional provisions. Under such a holding the laymen legally could not hold a seat in the conference

and were here by sufferance only.

John Fields, of Philadelphia, offered a resolution postponing the further consideration of the report until the next general conference in order to give the people of the church an opportunity to canvass and discuss the matter thor-oughly. He made a strong plea for his Joseph Browitt, family; Thomas Breden, leaves wife and five children; Harry Campbell, single; James Houston, and a immediately after the control of the control of the case.
